## OUR MISSION

To redefine how students are evaluated for college and career success

## OUR GOAL

To empower the next generation of professional talent to recognize that there are many 21<sup>st</sup> century skills and talents that they already possess. Simply by shifting their awareness and mindset, they can begin to track their activities and leverage them for their professional success.

## WHAT CAN SPECT DO FOR YOU?

### FOR STUDENTS

The Spect App shows students the real-life value of engaging in personal and professional development and in fact how easy it is to work on developing these through everyday activities. Not only do these activities look good on college applications or on a resume, but students can track their interpersonal skills and leadership skills growth through everything they do throughout their high school career. Many of the activities in which students participate regularly never get counted in comprehensive evaluations simply because they are not documented. With Spect, students can self-report and record activities they do on their own time that enhance their personal and professional development. At the end of the year, students can easily get all that information collated into a resume format.

### FOR PARENTS, TEACHERS, AND ADMINISTRATORS

The Spect App makes it easy for administrators to post and promote all extracurricular activities, sponsored events, and professional development pathways that are available through the school. Rather than tracking paper-based portfolios of student experience and activities, Spect digitizes these into an easy to read dashboard. As students use the app more frequently for keeping track of their extracurricular activities, teachers will have the ability to pull data on student activities into a comprehensive letter of recommendation template. Alongside trackable metrics like credentials, technical accomplishments, GPAs and test scores, a Spect profile provides a comprehensive and holistic insights into a student's attitude, drive, motivation and potential — things that are sometimes missed in evaluations of student performance.

**EXTRA BENEFIT:** In addition to providing Spect to you for free, we are also committed to donating 10% of our premium sales back to your school.
